

A Match the pictures showing people doing different things to help the environment to the activities in the box.

Clearing ponds

Collecting money for charity

Picking up litter

Planting trees

Volunteering in a charity shop

B Work in pairs. Discuss these questions.

In your opinion, which of the activities above ...

- is the most important?
- would be the best to do on a rainy day?
- would be the most tiring?
- would make the biggest difference to the local area?
- would be the most enjoyable?
- would help wildlife the most?
- would be the most boring?
- would be the most rewarding?

C Work in pairs. Take it in turns to complete the speaking task below.

You have decided to spend some of your free time in the school holidays doing something to help the environment. Choose **two** of the activities above and tell your partner.

Which activity will you choose to do and why?

Why are you rejecting the second option?
